Experience

Bandhan of Dreams

Full Stack Developer Intern

July 2025 - Aug 2025

Hybrid

- Built and deployed a full-stack Shopify e-commerce platform with custom UI and seamless checkout flow.
- Developed scalable modules: authentication, product catalog, cart, and order management system.
- Optimized performance and responsiveness, enhancing user engagement across devices.
- Reduced page load time by 35% through efficient code structuring and asset optimization.

Projects

StartupOps : StartupOps: AI-Driven Startup Management Platform | [GitHub](#)

- Built a full-stack SaaS platform using Next.js, Node.js, PostgreSQL, and Prisma for startup workspace, task, and milestone management.
- Implemented real-time collaboration features with Socket.io, including role-based access control and live team communication.
- Integrated AI-powered insights using Google Gemini API for task recommendations and automated pitch deck generation.
- Designed secure RESTful APIs with JWT authentication, Google OAuth, and bcrypt-based credential encryption..

Student Attendance Portal | [GitHub](#)

- Designed a role-based attendance management system enabling secure Admin and Teacher workflows with session-based authentication and input validation.
- Implemented real-time attendance tracking with dynamic class/section mapping and automated teacher allocation to streamline institutional operations.
- Designed responsive, role-aware dashboards delivering actionable insights into attendance trends, student records, and class performance analytics.
- Developed a scalable CRUD-based backend for Students, Classes, and Attendance modules with optimized relational database design ensuring data integrity and high performance.
- Tech Stack: PHP, MySQL, Bootstrap, HTML5, CSS3, JavaScript

Technical Skills

Programming & Web Stack: Python, Java, JavaScript, SQL, HTML, CSS, React.js, Node.js, Flask, Bootstrap, Tailwind CSS, REST APIs, JSON

Databases & Backend: MongoDB, MySQL, PostgreSQL, Firebase, CRUD Operations, API Integration

Cloud & Version Control: Git, GitHub, AWS (Basics), Docker, Postman, CI/CD, Jupyter, Google Colab

Achievements & Recognition

- **3rd Prize – Inter-College Hackathon** | Guru Nanak Dev Engineering College
Developed an **AI-Based Student Management System** to streamline academic performance tracking and automate student data management with intelligent insights.
- **Participant – National Level Thal Sainik Camp (TSC), Firing Competition (IDSSC)**
Represented the unit at national level and demonstrated proficiency in shooting and competitive training.
- **Content Writer, Social Worker.**
